Objective

Motivated Computer Science grad seeking a full-time position with a strong foundation in programming and problem-solving, combined with extensive experience in management and operational efficiency.

Relevant Skills / Courses

- Python – Expert
 - SQL – Expert
 - TS/JS – Proficient
 - C++ - Proficient
 - C – Proficient
 - HTML/CSS – Novice
 - Java / Assembly - Introductory
 - Cloud Systems
 - CI/CD Management
 - Database Automation
 - System Design
 - Operations Management
 - People Management
 - Cloud Systems
-

Projects & Accomplishments

- **File Management through the Cloud:** Built an asynchronous Python file management system in AKS for SharePoint workflows at Lithia & Driveway for all management of monthly files.
 - **Built Custom Reporting Applications:** Developed applications in Python for multiple teams to meet data needs for their reporting.
 - **Warehouse Automation Software:** Built Python scripts and internal tools to reduce manual work, improve reporting, and support warehouse logistics.
-

Professional Experience

Lithia & Driveway

Data Engineer/DART

Remote | April 2025 – Current

- Develops Python-based automation tools to support file management, reporting workflows, and recurring business processes.
- Supports cloud-based data workflows using structured testing, validation, CI/CD practices, and maintainable project organization.
- Collaborates with technical and business teams to improve workflow reliability, reduce manual work, and support reporting needs.

Q Pacific

Warehouse Manager

Tigard, OR | March 2018 – April 2025

- Manages warehouse operations, including inventory control, order fulfillment, and logistics, ensuring high efficiency and accuracy.
- Develops and implements custom Python and C++ scripts to automate and optimize reporting and data management processes across the company.

Randstad

Contractor

Tigard, OR | April 2017 – March 2018

- Resulted in full-time hire from Q Pacific

Southern Glazer Wine & Spirits

Warehouse Attendant

Tualatin, OR | April 2014 – April 2017

- Excelled in high-volume order picking, holding the company record for the most bottles picked.

Education

Bachelor's Degree in Computer Science, Portland State University

Expected Graduation: June 2026

- Relevant coursework includes Cloud Systems, Data With Python, Data Engineering, Data Structures, Algorithms, Discrete Mathematics, and Software Implementation.
- Actively enhancing programming skills in Python, SQL, C++, and JS/TS through academic projects and self-driven learning.

Associates Degree in General Education, Portland Community College

Completion: June 2023
